

Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydropower Licensing has reviewed the application for major license for the proposed Crown Mill Hydroelectric Project to be located on the Mississippi River in Minneapolis, Hennepin County, Minnesota, and has prepared an Environmental Assessment (EA) for the proposed project. In the EA, the Commission's staff has analyzed the potential environmental impacts of the proposed project and has concluded that approval of the proposed project, with appropriate mitigative measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

Users of these products who desire continued use on crops or sites being deleted should contact the applicable registrant before March 16, 1998 to discuss withdrawal of the applications for amendment.
